

# 课后作业16

本题实际上可以等价为一个六段图问题，如下所示：

$$C(5, 11) = 19$$

$$C(4, 7) = 21$$

$$C(3, 4) = 38$$

$$C(5, 12) = 7$$

$$C(4, 8) = 28$$

$$C(3, 5) = 34$$

$$C(2, 2) = 50$$

$$C(5, 13) = 10$$

$$C(4, 9) = 19$$

$$C(3, 6) = 29$$

$$C(2, 3) = 44$$

$$C(5, 14) = 4$$

$$C(5, 15) = 16$$

$$C(4, 10) = 21$$

$$C(1, 1) = 59$$

由于计算方式和作业15完全一致，故在此给出答案，59，路径为9-12-10-18-10
